

Model LED C

Details:

- Connection Mode: rechargeable battery
- Four models of working time: 4, 10, 15, 20 seconds
- Three working modes: full power, Ramping, Pulse
- The battery can be replaced
- A full charge can use more than 200 times continuously under 10s time mode. Low standby power consumption with several days' stand by time
- Power Input: AC 100 - 240V 50/60 HZ
- Net weight: 120 g
- Light Output: more than 1000mW/cm
- Dimensions: 23 mm x 263 mm

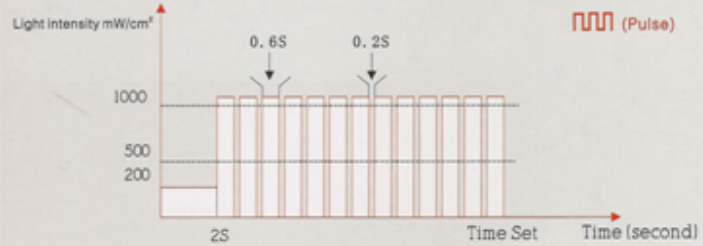

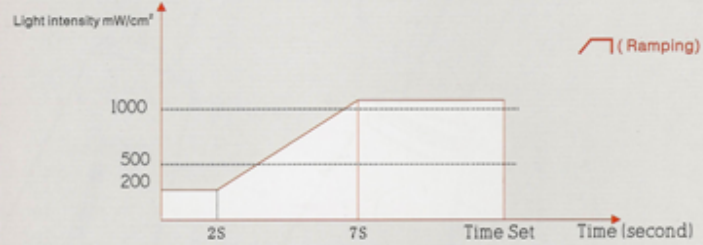

Features:

- ü The light source uses original American Led
- ü The optical fiber can be autoclaved under the high temperature of 135C and the pressure of 0.22MPa.
- ü The solidified depth of the curing light composites resin for 19 seconds is not less than 4 mm
- ü The optical fiber can rotate 360 degrees
- ü Light source: Blue light, wave length: 420 – 280 nm.
- ü Applicable scope: any famous brands resin

PORTABLE RECHARGEABLE CURING LIGHT

Data Chart

- Full power** The blue light radiates in full power
- Ramping** The blue light power increases stronger continually, after 5 seconds reaches to the highest power.
- Pulse** The blue light works on the pulse condition.
